

DEVELOPMENT OF A 'CLEAN H2' ECOSYSTEM

#AllCleanH2forEU

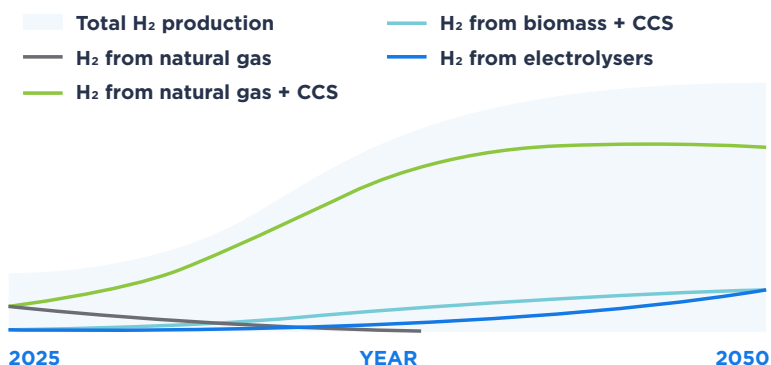

Current global dedicated hydrogen production

- Energy input by source

Source: IEA (2019)

Illustration of potential hydrogen volumes over time

Source: SINTEF/IFPEN "Hydrogen for Europe" pre-study (2019)

In order to scale up clean hydrogen

at competitive prices, we need a policy framework that promotes R&D and investment into all clean hydrogen technologies

Applications

Energy-intensive industries

Heating

Transport

Power sector
